

# DAY-1

## OVERVIEW

# WEB DEVELOPMENT OVERVIEW

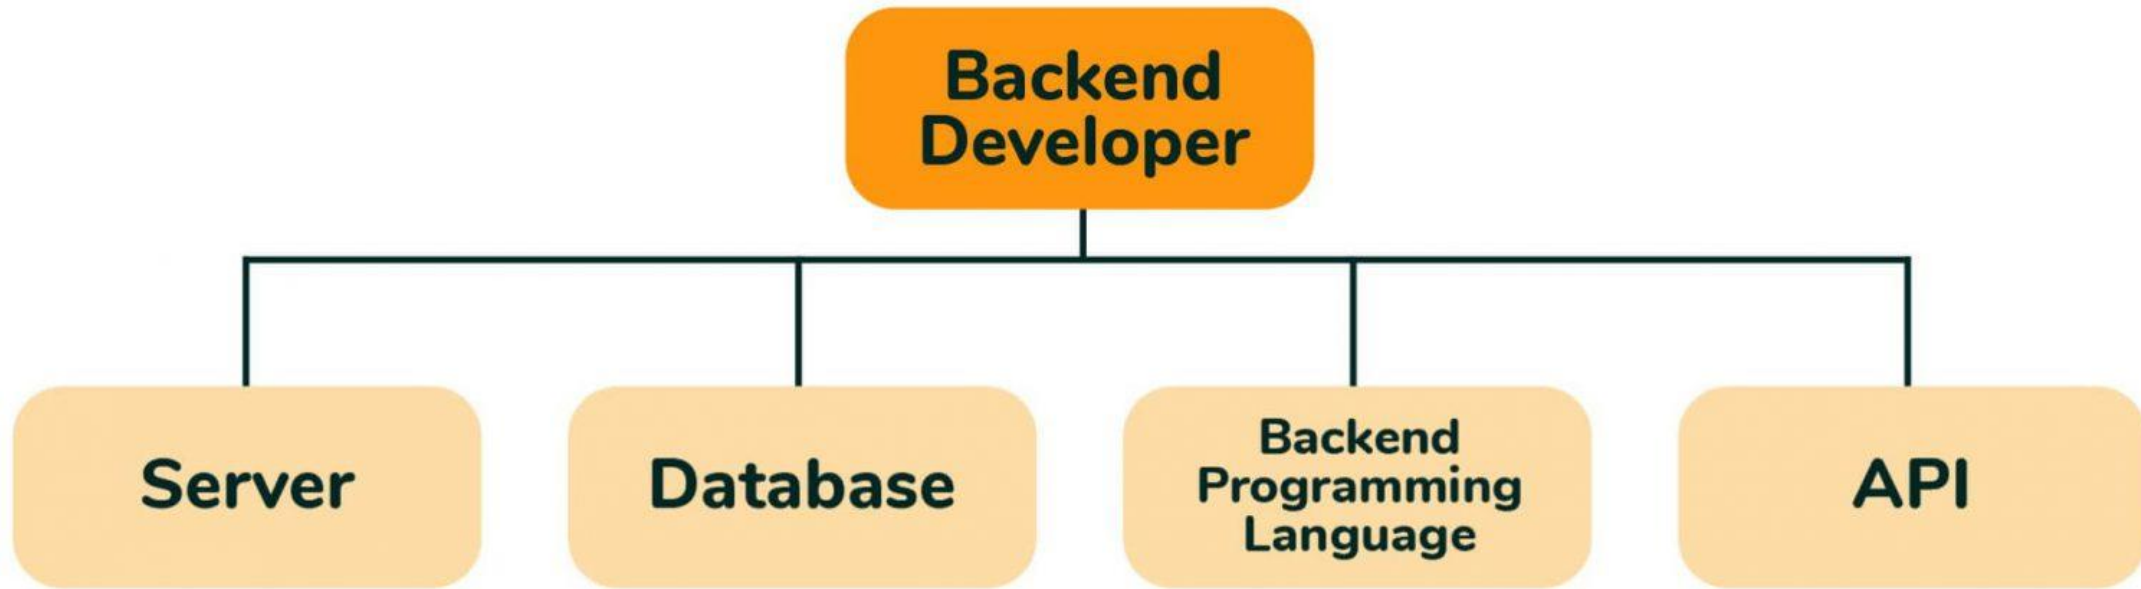

\*The difference between Front-End and Back-End is that Front-End refers to how a web page looks, while back-end refers to how it works.

## Front-end Development

\*A Front-End Developer is someone who creates websites and web applications. Using above mentioned languages.

## BACKEND DEVELOPMENT

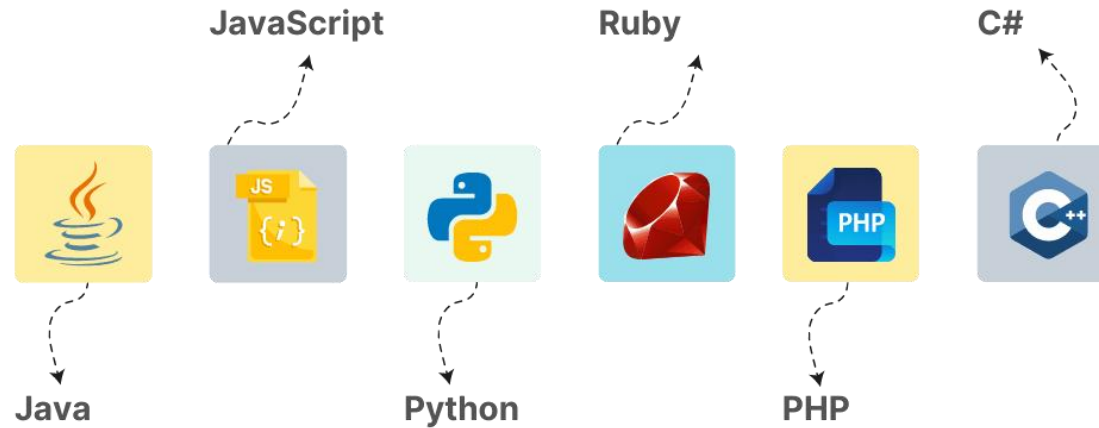

- In backend development , it have SERVER,DATABASE AND API'S.
- Server is responsible for responding to the request from frontend /user which is stored in Database.

# Programming languages used for backend

## Top Backend Programming Languages

---

A person is sitting on the edge of a dark, silhouetted cliff. The background is a solid blue sky. The overall image has a blue tint. There are two white L-shaped corner brackets: one in the upper left and one in the lower right.
